Marine Technical Services | Ship Supply | Equipment & Spare Parts | Oil & Gas Support

Tidwa T.S. is a specialized provider of **marine technical services, ship supplies, equipment, machinery, and spare parts** for vessels and offshore units, with a particular focus on the **Oil & Gas, Energy, Marine, and Offshore industries**.

We provide reliable and integrated supply solutions tailored to the technical and operational requirements of vessel owners, ship managers, offshore contractors, maintenance companies, and energy-sector operators.

1. OUR SERVICES

Marine Equipment & Ship Supply

We supply a wide range of marine equipment, spare parts, consumables, and technical materials, including:

- Marine machinery and equipment
- Engine and generator spare parts
- Pumps, valves, actuators, and fittings
- Bearings, seals, gaskets, and filters
- Hydraulic and pneumatic components
- Electrical and electronic equipment
- Marine navigation and communication equipment
- Safety and firefighting equipment
- PPE, tools, and maintenance supplies
- General marine consumables

Technical Services

Our technical support includes:

- Equipment and spare parts sourcing
- Spare parts identification
- OEM, approved, and technically equivalent alternatives
- Technical specification review
- Machinery procurement
- Maintenance and repair support
- Special and hard-to-find components
- Coordination with manufacturers and authorized suppliers
- Emergency and urgent vessel supply

2. OIL & GAS MARINE SUPPORT

We support vessels and offshore units operating in demanding Oil & Gas and energy environments, including:

- Offshore Supply Vessels (OSV/PSV)

- Anchor Handling Tug Supply Vessels (AHTS)
- Crew and Work Boats
- Utility and Tug Boats
- Offshore Support Vessels
- Service and Maintenance Vessels
- Other specialized marine and offshore units

3. EQUIPMENT & SPARE PARTS

Our procurement network enables us to source parts according to **manufacturer, model, part number, technical specifications, and customer requirements**.

Our supply range includes:

Mechanical: Pumps, valves, motors, compressors, bearings, seals, couplings, gearboxes, filters, hydraulic and pneumatic components.

Engine & Generator: Engine components, fuel and cooling system parts, lubrication and starting system components, filters, gaskets, bearings, seals, electrical components, and maintenance kits.

Electrical & Electronics: Motors, switchgear, circuit breakers, cables, batteries, chargers, power supplies, sensors, instrumentation, panels, and electronic components.

Navigation & Communication: Marine radios, GPS, radar components, antennas, navigation equipment, sensors, and related spare parts.

Safety & Firefighting: PPE, protective clothing, safety footwear, helmets, gloves, firefighting equipment, emergency equipment, and marine safety supplies.

4. INDUSTRIES WE SERVE

Our services support customers in:

- Oil & Gas
- Offshore & Marine
- Shipping & Ship Management
- Energy
- Industrial Services
- Marine Maintenance
- Offshore Construction
- Marine Transportation

Our Commitment

We are committed to providing **reliable, accurate, and timely technical supply solutions**, helping our customers maintain safe, efficient, and continuous vessel and offshore operations.
